We will remain the practical training in Golden Sun hotel for a long time. **We learned a lot there and also gained new professional experience.**

Under the watchful eye of qualified staff, each one of us had a chance to learn the secrets of a cook's, waiter's, barman's, or barista's work. Our knowledge was enriched by familiarity with Greek dishes and the ingredients used to prepare them. We also became familiar with the process for making oil and wine, as well as baking traditional breadstuffs.

During free time, the hotel's owners, residents, and pilots provided us with many attractions. **The best among them was the opportunity to tour incredible places full of charming views and interesting stories** -- Thessaloniki, Larisa, Meteora, Skiatos, and Olympus. It was also a chance to encounter interesting people, culture, music, and Greek traditions.

We are very grateful for providing us with such a chance, for a pleasant, generous atmosphere, and for openness and constant meeting our needs head-on. Golden Sun made us feel at home. We recommend this wonderful place to anyone....
